PROJECTS

InstaVEG | *React.js, TypeScript, Node.js, Express.js, PostgreSQL, Drizzle ORM*

[Live](#)

- Engineered a full-stack web application supporting 3 user roles (Buyer, Seller, Admin) with JWT authentication, RBAC, and secure session management.
- Developed scalable RESTful APIs using Node.js, Express.js, and PostgreSQL with OpenAPI-first architecture, Drizzle ORM, and Zod schema validation.
- Integrated Razorpay payment gateway, multi-vendor cart, real-time order tracking, and seller analytics dashboard using React.js, TanStack Query, and Tailwind CSS.

Appointy | *React.js, Node.js, Express.js, MongoDB, JWT, Razorpay*

[Live](#)

- Built a full-stack healthcare appointment platform with specialty-based doctor discovery, role-specific dashboards, and secure multi-role authentication (Patient, Doctor, Admin).
- Designed MongoDB schemas for doctors, patients, appointments, and transactions enabling complex scheduling queries and real-time availability management.
- Integrated Razorpay with multiple payment modes, implementing end-to-end booking confirmation, appointment lifecycle management, and admin analytics with full CRUD.
